### Comment from ZIPAIR President Shingo Nishida

Since the announcement of our business in May 2018, our employees have united to prepare for the launch of medium and long distance LCC services. Unfortunately, in light of the current situation, we are not able to launch passenger flights to Bangkok. As people around the world find new ways to promote their businesses, we decided to take a step forward by temporarily launching cargo-only flights between Japan and Thailand.

As a new airline that looks to serve a diverse customer base, our employees will continue to prepare for the much anticipated launch of passenger flights to destinations throughout the world.
